Topkhana Road, Dhaka-1000

Visit Report: Kamalnagar Upazila Health Complex, Lakshmipur

Date of Visit: 01/08/22; Time: 12:30 PM.

Visitor: Dr. Md. Mostafizur Rahman, Deputy Director (Deputy Secretary), HEU, MoHFW

Dr. Md. Emdadul Haque, National Consultant, HEU, MoHFW

1. We met with the UH&FPO, RMO and other medical officers. The infra-structure of the Upazilla Health Complex is 50 bedded. From 2016 the hospital functioning as 50 bedded hospital, but indoor & OT in the new building yet not started. There are 6 posts of consultant, among them anesthesia, medicine and pediatrics are working but consultant gynae in deputation at Komlapur Railway Hospital. So, there is no facility for caesarean section.
2. X-Ray machine is nonfunctioning because of no radiographer, no USG machine, ECG machine is out of order. There is no MT (Lab) but one MT (TB) is working in pathology department.
4.There are 20 nurses and but no midwifes are working in the hospital.
5. We visited emergency, outdoor and indoor and the premises of the hospital. There are 3 emergency kit boxes in emergency department with essential drugs. Sterility is not maintaining properly. The emergency department should be close to the emergency medical officer's room. Privacy of the patient should be maintained properly.
6. OPD service is well functioning. On an average 300 patients per day comes in the outdoor.
7. Indoor service is functioning but need more cleanliness. Bed occupancy rate is 110%. Toilets are not properly cleaned.
8. OT service is very poor. Unwanted items are stored in there, advised to shift the OT in OT complex of the new building.
9. Front side of the premises is clean.
8. The position in health service system (HSS score) was 168 in May-22 and 289 in June-22 among all the UHC of the country.

Recommendations:

1. Part of indoor & OT should be shifted to new building as soon as possible.

2. All the vacant post of human resource should be fulfilled. The deputation of the consultant of Gynae-obstetrics should be cancelled or replaced by another Gynaecologist to improve the maternal health service. All the post of Midwives must be fulfilled.

3. A radiographer is needed for operating X-Ray machine. USG machine should be supplied and ECG machine needs to be repaired.

4. The location of the emergency department should be close to the emergency medical officer's room. Sterility should be maintained. Privacy of the patient should be maintained properly.

5. Ceiling of the indoor ward should be repaired immediately. Close attention should be given on cleanliness in indoor. Indoor toilet should be cleaned properly. Unwanted items should be removed.

6. Suggestion box should be replaced to Complain and suggestion box.

7. Replication of C-J model will help in development of the quality of care.

8. Drugs and medical equipment's are kept disorganized in the OT complex of the new building which should be organized in the store.

8. Unwanted items should be condemned as soon as possible.

9. Register for recording daily supplied diet materials for the patients should be maintained properly.

The report is reviewed by-
