Fig-1: Meeting with Civil Surgeon, Barguna

Visit Report: Barguna Sadar Hospital, Barguna.

Date of Visit: 23/08/22; Time: 10:45 AM.

Visitor: Dr. Md. Emdadul Haque, National Consultant (HEU) &

Dr. Nazmur Rahman Sajib, Junior National Consultant (HEU)

1. We arrived at 10:45 am in the hospital. Superintendent, RMO, consultants were present. We discussed with them about the overall situation of the hospital. We also discussed with them about the SSK program and role of the District Hospital in SSK.
2. There are 10 posts of senior consultants but all the posts are vacant. Out of 11 posts of junior consultant, 7 posts are vacant. Among them, Surgery Gynae, Anesthesiology and Orthopedics are available.
3. There are two cleaners. One cleaner posted in the hospital; another one is from deputation. There is no Aya, ward boy, guard, gardener, electrician and trolley-man. 12 cleaners are supported from the Powroshova. 20 post of outsourcing is created, but only 11 post is approved in recruitment policy. Till now, no one is appointed to work.
4. The infra-structure of this hospital is 100 bedded. The physical condition of the hospital building is satisfactory. There is another 150 bedded infra-structure building available within the hospital campus. There is an administrative approval in 20-10-20 to start as 250 bedded hospital. Drugs, MSR and Diet supply is necessary and the post of 250 bedded human resources are yet not created. Its is under process in Health Ministry.
5. We visited outdoor of the hospital which was crowded with patients. We also observed Emergency, pathology and pharmacy department. The automation of indoor and outdoor is functioning. The information display system was satisfactory but not updated. There was no effective health education system.
6. Cleanliness of the hospital premises and indoor was poor. There are separate operation theatres for performing major operations.

7. There is a small cycle stand close to the main gate. There are many motorcycles parked within the premises.
8. The roof of the hospital was clean and beautiful.
9.There are spaces for SSK Booth and Pharmacy close to the emergency department.
10.There are many “Danbox” throughout the hospital.
11. There is no conference room in the old building but using a room in new building as conference room.
12. There is no facility for caesarean section 24/7.
13. In 2021, total OPD patient was 1,21,486. Indoor admitted patient was 18,613. Bed occupancy rate was 141.8%. Total ANC visit in 2021 was 661. Total delivery was 1101. Among them NVD was 466, C-section was 83.

Recommendations:

1.There should be a front gate with security for campus protection.

2.For cleaning and beautification, outsourcing staff should be recruited immediately. For waste management, involvement of Powroshova is necessary.

3. 250 bedded hospital should be functioning as soon as possible.

4. All the vacant posts of consultants should be fullfilled. All the vacant posts of 4th class should also be fulfilled immediately

5.Separate sterilizer machine should be added in emergency, dental unit and abor room.

6. Condemetion Board should work to destory all unwanted items.

7. Replication of C-J model will help in development of the quality of care and it should be followed properly.

8.There should be a Complaints and Suggestion box in front of Superintendent room

9.There should be availability of safe drinking water.

10.All the "Danbox" should be remove.

11.Display system should be updated regularly and health education for the patients and their attendants should be introduced.

12.There should be 24/7 facility for caesarean section.

Visit Report: Betagi Upazila Health Complex, Barguna

Date of Visit: 23/08/22; Time: 12:45 PM.

Visitor: Dr. Md. Emdadul Haque, National Consultant (HEU) &

Dr. Nazmur Rahman Sajib, Junior National Consultant (HEU)

1. We arrived in Bamna UHC at12:45 pm .The post of UH&FPO was vacant.

RMO and other medical officers were present in the health complex. We met with them, discuss about the overall situation of the health complex. There are 7 union under the UHC having 1,10,926 population. There is one Sub-centre, 7 H&FWC and 17 Community Clinic in this Upazilla.

2.The infra-structure of this Upazila Health Complex is 50 bedded. The physical condition of the old part of the building is un-useable. Immediately it should be declared as condemned structure.

3.All the post of Consultants are vacant. So caesarean section is not being performed.

4.There is no cycle stand. There are many motorcycles parked in the premises.

5. We observed emergency, outdoor, pathology and pharmacy department. The information display system was weak.

6.The USG, ECG machine is functioning but X-Ray machine is not functioning.

8.The spaces of emergency is congested. But SSK Booth and Pharmacy cannot be established close to the emergency department. There is no separate O.T

9. Cleanliness of the hospital premises, outdoor and indoor was not satisfactory, but wash room was not clean.

11.The roof of the health complex is not clean. There are many bushes on the roof.

12.There are many “Danbox” throughout the UHC, and advised for removing those immediately.

14. In 2021, total OPD patient was 24,620, in emergency 6152 and in indoor admitted patient was 5878. Bed occupancy rate was 63%. Total ANC 1st visit in 2021 was 302 and total delivery was 46.

16	Position in HSS score in July22. (Best= <100; Good= 101-200; Weak= >200)			√
17	Power point Presentation &Video on UHC			√
18	Knowledge about 8th Five Year plan & SDG.			√
19	Zero-Tollarance on corruption		√	

Recommendations:

1.The dranage system of the health complex should be improved The local powroshova must take part in solving the problame.

2.All the post of consultants specially gynae and anesthesia should be filled up immediately for the development of improved maternal health.

2. Cleanliness and beautification is satisfactory. The local Powroshova must take part in waste management.

3. There should be funtioning OT room for major operation in the health complex.

5. Condemetion Board should work to destory all unwanted items.

6. All the vacant posts of 4th class should be fulfilled immediately.

7. The post of Dental Surgeon and Medical Technologist (Dental), Medical Technology (Radiology)must be fulfilled to start dental& radiology services.

8. Replication of C-J model will help in development of the quality of care and it should be followed properly.

14. There should be a Complaints and Suggestion box in front of UH&FPO room

15. The roof of the health complex building should be cleaned.

16. There should be availability of safe drinking water.

17. All the “Danbox” of the UHC, should be remove.

18.The performance of all services must be improved, because of underutilization of the health complex.

Visit Report: Amtoli Upazila Health Complex, Barguna

Date of Visit: 25/08/22; Time: 8:45 AM.

Visitor: Dr. Md. Emdadul Haque, National Consultant (HEU) &

Dr. Nazmur Rahman Sajib, Junior National Consultant (HEU)

1. We arrived at 8:45 am in the health complex. But no medical officer except EMO was present in the health complex.
2. The infra-structure of this Upazila Health Complex is 50 bedded. The physical condition of the hospital building is good. The UHC is situated close to the high way. There are 7 unions under this UHC.
3. We met with the RMO and other Medical Officers, discuss with them about the overall situation of health complex. The post of Gynae and Anaesthesia consultant was vacant, so caesarean section is not performed.
4. We visited outdoor of the Upazila Health Complex of Amtoli. The outdoor was crowded with patients. We observed OPD, Emergency, labour room, pathology and pharmacy department. There are two medical technologist (Lab). The information display system was better than any other UHC of Barguna district, but the health education system is weak.
5. Cleanliness of the hospital premises and indoor was satisfactory. There is a separate operation theatre but not functioning.
6. There is no cycle stand close to the main gate. There are many motorcycles parked within corridor.
7. The roof of the health complex is not clean. There are many bushes and unwanted hospital beds and other items on the roof.
8. There are many spaces in emergency, SSK Booth and Pharmacy can easily be established there.
9. There are many “Danbox” throughout the UHC, and advised for removing those immediately.
10. The UHC was awarded by “Health Minister’s Award” in 2015.
